

# THE PENETRATOR

# THE PENETRATOR

The "PENETRATOR" is an autonomous rescue kit. It consists of a set of 3 heads, mini door opener, mini cutter and mini spreader.

It also boasts itself with a mini crowbar and a hydro-electric group on battery.

This set will be silent during search of victims or during break-ins of a building by rescue teams or by the Police.

This intervention kit will help create a path and deal with many situations.

## TECHNICAL CHARACTERISTICS

### SPREADER

Opening	152 mm
Spreading force	42 Kn
Weight	3.3 kg

### CROWBAR

Length	300 mm
Weight	0.5 kg

### DOOR OPENER

Lifting force	50 Kn
Stroke	300 mm
Weight	3.9 kg

### CUTTER

Opening	31 mm
Cutting force	145 Kn
Cutting force (round steel bar)	18 mm

### HYDRO ELECTRIC POWER UNIT

Oil volume	0.2 l
Engine power	550 W
Battery	24 V – 5AH
Weight	10 kg
